

New APC Standing Committees

This year the APC has created new committees to better represent our AP needs on campus. Membership of the standing committees is not restricted to APC members, if you are interested in joining please contact Vice Chair, [Tori Anderson](#).

- **AP Experience** – Works within the APC and with other units on campus to advocate for equity and consistent employee evaluations, onboarding best practices, and exit interviews.
- **Awards & Events** – This committee is now a combination of two committees into a single task force. They are responsible for suggesting and reviewing awards for APs, overseeing the management of awards and planning, organizing, and implementing the annual AP appreciation event.
- **Equity & Social Justice** –Examines structures and processes within the APC to identify the shifts that could be made to be more inclusive, providing more diverse voices to be heard and therefore allowing APC to represent the AP more fully.
- **Service & Engagement** – Works to help connect the APC and APs across campus with service opportunities throughout the year.
